DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Species A in the reply filed on 28
 September 2004 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 6-10 and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, "the third substrate" lacks positive antecedent basis.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (f) he did not himself invent the subject matter sought to be patented.
- 5. Claims 1-10 and 12-18 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. WO 2004/017785 to Orloff discloses the same subject matter being claimed in this application.
- 6. Claims 1-4 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Schauble (US 4,809,432).

Application/Control Number: 10/643,365 Page 3

Art Unit: 3724

Schauble discloses all the recited elements of the invention including:

a) a razor head having at least one blade (14);

b) a shaving aid delivery system including a framework with a supply of at

least one shaving aid fluid including a first substrate (66), a second

substrate (36), and a third substrate (12) connected together in a stacked

array wherein a microchannel circuit between the first substrate and the

second substrate (Figure 2), a microfluidic circuit (46), a plurality of outlet

ports (at 48, 50, 52, 54), and a transport system (30);

Regarding claim 15, 12.

Claim Rejections - 35 USC § 103

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Schauble in view of Prochaska (US 6,473970)

Schauble discloses the invention substantially as claimed except for the shaving aid selected from the group as claimed. However, Prochaska teaches such a shaving aid is well known in the art (e.g., polyethylene oxide, aloe, or vitamin E). It would have been obvious to one having ordinary skill in the art at the time the invention was made to employ such a shaving aid as emollient on the device of Schauble.

Conclusion

Application/Control Number: 10/643,365

Art Unit: 3724

applicant's disclosure. Cataudella, Noujain, and Althaus et al. are cited to show related

The prior art made of record and not relied upon is considered pertinent to

devices.
